Dog Food Recipe Benefits and Nutrition

Recipe range

Recipe	Key nutritional features
Chicken and Vegetables	Chicken and organ proteins with pumpkin, carrots and seed fibre.
Chicken Rice with Vegetables	Chicken and organ proteins with cooked rice, vegetables and flaxseed.
Egg SuperFood	Egg protein with quinoa, vegetables, seeds and added eggshell calcium.
Paneer Medley	Dairy and lentil proteins with rice, vegetables and chia seeds.
Lamb and Lentils	Lamb protein with cooked lentils, vegetables, sunflower oil and flaxseed.

Indicative nutritional comparison

Values per 100 g of wet food. Carbohydrates include total dietary fibre.

Recipe	Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
Chicken & Vegetables	10.4	7.5	5.9	1.9	114
Chicken Rice with Vegetables	9.9	7.3	6.3	1.4	112
Egg SuperFood	8.1	5.6	7.1	1.7	109
Paneer Medley	7.3	6.0	8.2	1.7	103
Lamb & Lentils	11.7	5.0	7.0	2.5	116

Chicken and Vegetables

Ingredient benefits

Ingredient	Nutritional contribution
Whole Chicken	Provides animal protein for normal tissue maintenance and fat for energy.
Chicken Liver	Contributes protein, vitamin A, vitamin B12 and iron.
Chicken Heart	Contributes muscle protein and naturally occurring B vitamins and taurine.
Chicken Gizzard	Adds muscle protein to the chicken recipe.
Pumpkin	Contributes fibre, carotenoids and vegetable texture.
Peas	Contributes plant protein, starch and dietary fibre.
Carrot	Provides carotenoids and fibre, with colour and vegetable texture.
Sweet Potato	Provides starch energy, dietary fibre and carotenoids.
Flax Seeds	Contributes plant omega 3 in the form of ALA, together with dietary fibre.
Turmeric	Adds colour and naturally occurring plant compounds.
Chia Seeds	Contributes ALA omega 3 and fibre, and helps retain water in the food texture.

Indicative nutritional profile

Per 100 g of wet food.

Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
10.4	7.5	5.9	1.9	114

Chicken Rice with Vegetables

Ingredient benefits

Ingredient	Nutritional contribution
Whole Chicken	Provides animal protein for normal tissue maintenance and fat for energy.
Chicken Liver	Contributes protein, vitamin A, vitamin B12 and iron.
Chicken Heart	Contributes muscle protein and naturally occurring B vitamins and taurine.
Pumpkin	Contributes fibre, carotenoids and vegetable texture.
Rice	Cooked starch provides energy and helps bind the meal.
Peas	Contributes plant protein, starch and dietary fibre.
Carrot	Provides carotenoids and fibre, with colour and vegetable texture.
Sweet Potato	Provides starch energy, dietary fibre and carotenoids.
Water	Adjusts the consistency of the wet food.
Turmeric	Adds colour and naturally occurring plant compounds.
Flax Seeds	Contributes plant omega 3 in the form of ALA, together with dietary fibre.

Indicative nutritional profile

Per 100 g of wet food.

Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
9.9	7.3	6.3	1.4	112

Egg Superfood

Ingredient benefits

Ingredient	Nutritional contribution
Egg	Provides high quality protein, fat and choline.
Quinoa	Contributes cooked starch, plant protein and fibre.
Sweet Potato	Provides starch energy, dietary fibre and carotenoids.
Carrot	Provides carotenoids and fibre, with colour and vegetable texture.
Pumpkin	Contributes fibre, carotenoids and vegetable texture.
Spinach	Contributes fibre, folate and carotenoids.
Green Peas	Contributes plant protein, starch and dietary fibre.
Zucchini	Provides vegetable texture and some dietary fibre.
Pumpkin Seed Powder	Contributes protein, fat and naturally occurring minerals.
Chia Seeds	Contributes ALA omega 3 and fibre, and helps retain water in the food texture.
Turmeric Powder	Adds colour and naturally occurring plant compounds.
Eggshell Calcium	Provides a concentrated source of calcium.
Green Beans	Contributes dietary fibre and vegetable texture.
Minimal Water	Adjusts the consistency of the wet food.

Indicative nutritional profile

Per 100 g of wet food.

Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
7.5	5.6	7.1	1.7	109

Paneer Medley

Ingredient benefits

Ingredient	Nutritional contribution
Paneer	Provides dairy protein, fat and calcium.
Rice	Cooked starch provides energy and helps bind the meal.
Masoor Dal (Cooked)	Contributes protein, cooked starch and dietary fibre.
Water	Adjusts the consistency of the wet food.
Carrot	Provides carotenoids and fibre, with colour and vegetable texture.
Green Peas	Contributes protein, starch and dietary fibre.
Pumpkin	Contributes fibre, carotenoids and vegetable texture.
Spinach	Contributes fibre, folate and carotenoids.
Chia Seeds	Contributes ALA omega 3 and fibre, and helps retain water in the food texture.

Indicative nutritional profile

Per 100 g of wet food.

Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
6.8	6.0	8.2	1.7	103

Lamb and Lentils

Ingredient benefits

Ingredient	Nutritional contribution
Lamb Meat (Lean)	Provides animal protein, with naturally occurring iron, zinc and B vitamins.
Lamb Liver	Contributes protein, vitamin A, vitamin B12 and minerals.
Sweet Potato (Cooked)	Provides cooked starch energy and dietary fibre.
Carrots	Provides carotenoids and fibre, with colour and vegetable texture.
Green Beans	Contributes dietary fibre and vegetable texture.
Broccoli	Contributes fibre and naturally occurring plant micronutrients.
Cauliflower	Contributes fibre and vegetable variety.
Red Lentils (Cooked Total)	Provides protein, cooked starch and dietary fibre.
Sunflower Oil	Provides energy and linoleic acid, an essential omega 6 fatty acid.
Ground Flaxseed	Contributes plant omega 3 in the form of ALA, together with dietary fibre.
Brewer's Yeast	Contributes protein and B vitamins, depending on the ingredient specification.
Calcium Source (CaCO3 / DCP)	Provides calcium; dicalcium phosphate also supplies phosphorus.

Indicative nutritional profile

Per 100 g of wet food.

Protein g	Fat g	Carbs g	Dietary fibre g	Energy kcal
11.7	5.0	7.0	2.5	116
